

Checklist of Spanish Butterflies (including the Canary Islands)

2015 campaign

The following list is based on García-Barros, E., *et al.* (2013) *Lepidoptera Papilionoidea*. In: *Fauna Ibérica*, vol. 37. Ramos, M. A. *et al.* (Eds). Museo Nacional de Ciencias Naturales. CSIC. Madrid.

Additional taxa found in the Canary Islands but not in the Iberian Península or Balearic Islands are marked in **purple**.

Where taxa have recently been raised to species status and have no common names, I have taken the liberty of making my own suggestion, in [square brackets].

Threat Status:

- IUCN Red List (Europe) categories are given in **red**: (**NT** = Near Threatened; **VU** = Vulnerable; **EN** = Endangered).
- Libro Rojo de los Invertebrados de España (2006) categories are given in **blue**: (**NT** = Near Threatened); **VU** = Vulnerable; **EN** = Endangered; **DD** = Data Deficient).
